WELL PRIMED!

CRYSTAL CLEAR'S Illuminate, €94 for 50ml recently won the title of best Primer 2008 at the Irish Beauty Awards. It is a brilliant pick-me-up for dull, tired complexions, transforming it to firm, smooth skin with even tone, which looks clear, bright and revitalised thanks to a host of active ingredients that help ageing skin regain its natural, youthful radiance and clarity. Illuminate visibly diminishes uneven skin tone and brown spots, nourishing the skin to create a more uniform look with real radiance. To help defend against any further damage from the sun, illuminate also protects from both UVA and UVB rays.
